STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/ 2/

Total Leaf Tobacco Stocks Lower Than Last July 1

Leaf tobacco inventories of dealers and manufacturers in the United States and Puerto Rico totaled 4,449 million pounds as of July 1, 1959. This is 160 million pounds less than the figure a year earlier and 397 million below 2 years ago. Inventories of most types were lower than on the previous July 1 with flue-cured down 4 percent, burley down 3 percent, fire-cured down 8 percent, dark air-cured 12 percent, and cigar binder about 7 percent. The only significant increase was in stocks of foreign-grown cigar leaf. About 40 million pounds, consisting of Maryland and Puerto Rican tobaccos, was marketed by growers during the April-June quarter.

Stocks as of July 1, 1959, included about 1,004 million pounds (farm-sales weight) of leaf tobacco under Government loans (1,007 million on July 1, 1958). These loan stocks were divided as follows: flue-cured 640 million pounds, burley 274 million, Maryland 9.0 million, fire-cured 46.0 million, dark air-cured 19.4 million, and cigar leaf 15.9 million.

---

1/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks except foreign-grown leaf which is converted to an unstemmed equivalent basis only. (See tables in body of report for reported weight basis). This report is issued quarterly.

2/ All Government loan stocks are reported by Grower Cooperatives, which are considered dealers for stocks-reporting purposes.

### CIGARETTE-LEAF STOCKS

#### Flue-cured and Burley Stocks

Smaller Than a Year Ago; Maryland About Same

Stocks of flue-cured tobacco as of July 1, 1959, totaled 2,210 million pounds -- 98 million lower than holdings reported on July 1 last year (2,308 million). The marketing year for flue-cured is on a July-June basis, and total disappearance (exports plus domestic disappearance) during the year just ended was 1,179 million pounds (1,178 million the year previous), based on July 1 stocks. Both domestic consumption (736 million pounds) and exports of flue-cured (443 million) were at practically the same level as during the previous year.

Burley tobacco stocks this July 1 were reported as 1,366 million pounds -- 46 million below the holdings on July 1, 1958 (1,412 million).

Inventories of Maryland tobacco on July 1, 1959, totaled 77.2 million pounds -- about the same as those reported last July 1 (76.6 million). Marketing of the 1958 crop of Maryland began on April 28, 1959, and sales through June 30 totaled 22.8 million pounds -- somewhat less than was marketed during the corresponding period in the previous season (27.9 million).

Foreign-grown cigarette and smoking tobacco stocks (Turkish and other) were reported as 235.3 million pounds on July 1, 1959 -- about the same as on hand a year earlier.

### DARK TOBACCO STOCKS

#### Fire-cured and Dark Air-cured Inventories

Substantially Below Those Reported a Year Ago

Stocks of fire-cured leaf, reported at 134.9 million pounds on July 1, 1959, were 11.2 million less than holdings on the previous July 1 (146.1 million). Decreases were shown in each of the types. Fire-cured stocks on this July 1 were as follows: Virginia, 25.4 million pounds; Eastern District Kentucky and Tennessee, 90.0 million; and Western District 19.5 million.

Dark air-cured holdings of 74.7 million pounds on July 1, 1959, were 9.9 million under the July 1 inventories last year (84.6 million). Stocks were smaller in each of the types. Inventories of dark air-cured on this July 1 by types were as follows: One Sucker, 46.0 million pounds; Green River, 23.2 million; and Virginia sun-cured, 5.5 million.

### CIGAR LEAF STOCKS

#### Domestic Filler and Binder Cigar-leaf Stocks Smaller Than a Year Ago Shade-grown Wrapper Holdings Down Slightly

Inventories of all domestic-grown cigar tobacco, including Puerto Rican, totaled 304.0 million pounds (farm-sales weight) on July 1, 1959. This is a decrease of about 4 percent below the holdings of last July 1 (316.0 million). It is estimated that around 15 million pounds of the 1958 crop of Puerto Rican entered stocks during the quarter. Stocks of foreign-grown cigar-leaf on hand as of the July 1 reporting date were 43.3 million pounds -- substantially more than was held a year earlier (25.9 million).

Holdings of the cigar-filler types as of July 1, 1959, totaled 194.6 million pounds -- 5.5 million under the figure reported on the previous July 1 (200.1 million). Stocks of Type 41 were slightly larger than on the previous July 1, but lower stocks of the other filler types more than balanced this increase. Inventories of cigar-filler by types on this July 1 were as follows: Pennsylvania Seedleaf, 119.8 million pounds; Ohio filler, 18.6 million; and Puerto Rican, 56.2 million.

Cigar-binder stocks totaled 89.1 million pounds on July 1, 1959 -- 6.2 million less than holdings on the same date last year (95.3 million). Stocks reported in each type were smaller than a year ago. Connecticut Broadleaf stocks this July 1 were 21.0 million pounds; Connecticut Valley Havana Seed, 16.3 million; Southern Wisconsin, 23.2 million; and Northern Wisconsin 28.5 million.

Shade-grown cigar-wrapper stocks as of July 1, 1959, totaled 20.3 million pounds consisting of 13.0 million of Connecticut Valley Shade and 7.3 million of Georgia-Florida Shade. Stocks of each type were slightly below a year earlier. The marketing year for cigar-wrapper is on a July-June basis, and total disappearance during the year just ended was 16.6 million pounds (16.8 million during the previous marketing year), based on July 1 stocks. Exports totaled 5.3 million pounds, the same as during the previous year, while indicated domestic consumption of 11.3 million was slightly lower.

Stocks of Cuban (Havana) leaf, reported at 25.1 million pounds, were up 6.8 million over last year and at a record high level. Philippine Islands (Manila) totaled 12.9 million pounds, nearly twice as large as stocks on hand a year ago, and stocks of other foreign cigar-leaf were 5.3 million compared with a negligible quantity on hand the previous July 1.

#### Leaf Represented in Stocks of Tobacco Sheet

Stocks of leaf represented in inventories of tobacco sheet total 3.3 million pounds (reporting weight) compared with 2.9 million the previous July 1. Of the total this July 1, 1.1 million pounds was in "tobacco sheet" for use in cigarettes and smoking tobacco, and 2.2 million in sheet for cigar binder and a small quantity for wrappers.

1/ Information in this table taken from U. S. Department of Agriculture Circular 435, Tobacco Shrinkages and Losses in Weight in Handling and Storage, Issued in July 1937. 2/ Factors for converting unstemmed stocks to farm-sales weight are adjusted on the basis of an average loss on the reported weight and should not be taken as indicative of full shrinkage after handling, sweating, and storage. 3/ See footnote 2 on page 7 for conversion factors to farm-sales-weight equivalent for cigar leaf except Type 46. 4/ Foreign-grown stocks not converted to farm-sales-weight equivalent.

1/ Beginning January 1, 1958 totals include stocks of leaf reported in Tobacco Sheet. See separate reporting in tables 4 and 5.

2/ For factor used in converting weights see table 1 except for cigar leaf. The instructions for reporting unstemmed cigar-leaf of the domestic types require dealers and manufacturers to indicate the weight basis on which the tobacco is reported, namely farm-sales weight, marked weight, or sweat weight. The stocks are converted to the farm-sales-weight equivalent on the basis of the amount reported in these three categories. The conversion factors by types of tobacco for July 1, 1959 are as follows: Type 41, 107; Types 42-44, 112; Type 51, 106; Type 52, 105; Type 54, 104; Type 55, 105; Type 61, 110; Type 62, 114. July 1, 1959 figures subject to revision.

3/ For explanation of stocks included in this classification, see footnote 5 on page 12.

4/ Foreign-grown leaf is converted to an unstemmed equivalent basis only.

1/ Annual disappearance for a type is calculated for the marketing year established for that type, the year beginning on the quarterly reporting date on which stocks of the type are at their lowest point and before the new crop enters stocks.

2/ The carry-over stocks have been tabulated separately according to broad groupings of ownership, namely manufacturers, under loan, and all other. "Other" reflects stocks reported by tobacco dealers and stocks held in the United States by representatives of foreign manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export.

3/ Subject to revision.

4/ July 1 estimate, U. S. Crop Reporting Board.

1/ Represents leaf tobacco in stocks of reconstituted or processed tobacco sheet. These stocks not reported prior to January 1, 1958.

2/ Subject to revision.

3/ Summary according to groups of grades reflecting a broad quality breakdown of total cigar leaf stocks.

4/ Includes Puerto Rican on the Island, Type 46.

5/ Although Type 73 is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong.

6/ Does not include Sumatra and Java leaf held for sale in the Free Trade Zone.

\* Revisions in April 1, 1959 report.

<sup>1/</sup> July 1, 1959 total includes stocks of leaf reported in Tobacco Sheet. See separate reporting in tables <sup>4</sup> and <sup>5</sup>.

<sup>2/</sup> These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

<sup>3/</sup> This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers include tobacco which is held under dealer registries of manufacturers and also tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export. All Government loan stocks are included as dealer holdings.

<sup>4/</sup> Includes stocks on the Island of Puerto Rico.

<sup>5/</sup> For explanation of stocks included in this classification see footnote 5 on page 12.

<sup>6/</sup> Does not include Sumatra and Java leaf held for sale in the Free Trade Zone.
